Subject: RE: Request for March 2 and 18 meeting presentations.

Thank You Doug & Jim

The OU2 information will be sent to the DEC & EPA.

As conveyed is our meeting Wednesday March 18th, the preliminary OU3 Work Plan water quality test results summations projected on the screen is considered privileged and is protected under the OU3 Order on Consent with NYSDEC. That information of course is updated and conveyed to the DEC in our routine project review meetings.

As you are aware I am not an attorney and therefore I will speak to our attorneys about conveying "attorney client work product" and "privileged" preliminary water quality test results generated under the OU3 Order with your agency, without NG forfeiting any of our rights and privilege I will get back to you as soon as I can.

I will point out that the three "preliminary" water quality graphs that we projected on the screen which not contain specific measurement values was new and is considered privileged information. However, all other figures were either taken from the OU3 RI or as I understand no longer considered "privileged".

Please note I am working from home today. I can be reached via email or cell phone at should you have any questions.

I will get back to you soon and thank you again for the opportunity to update your agencies this week.

Regards
Ed Hannon
Manager Environmental, Health, Safety and Medical
Northrop Grumman

I don't have any problem with Grumman providing copies of presentations that they made. In fact I'd appreciate a copy myself. Thanks Jim H

Subject: Request for March 2 and 18 meeting presentations.

Hi Jim

Ed and I spoke yesterday. I asked Ed if he would send me the presentations that his folks had given during our March 2 and March 18 meetings assuming he was comfortable releasing them. Rightly so, he wanted to make sure he did not violate any terms of agreements he has with DEC before doing so.

I told Ed I would check in with you to make sure it was ok. I believe you had asked for the March 18 presentation and Ed wanted to make sure his team was satisfied with releasing some or all of the content of that presentation. When Ed sends some or all of the March 18 presentation to you I would request that he copy me as well. In the meantime if you could give Ed the ok to send me the March 2 presentation that would be appreciated.

I think the presentations would be beneficial to our efforts here in the region to bring other folks up to speed on the extent of work that has been done to date.

Thanks

Doug
